**BSNLEU mislead on  
78.2% IDA merger.**

It is not funny; it is 100% true that, the BSNLEU is only responsible for the loss 9.4% IDA merger. But recently in a write-up in their WEB site, the BSNLEU instead of gracefully accepting their blunder and failure of signing a wage settlement without the benefits of 78.2% IDA merger, they have no shame to blame the FNTO and others who were not party in wage negotiations.

It is a fact that when the executive wage settlement signed, 78.2% IDA was neither due nor any order in this regard was released by the Department of Public Enterprises. But later when the non-executive wages were negotiating the IDA orders for the merger of 78.2% was issued by DPE. Despite this order the BSNLEU surrendered before the BSNL management and betrayed the 2 lacks BSNL non-executive workers from getting the fixation of 9.4% IDA with the basic pay. The workers have a recurring loss of 9.4% of wages; the pensioners lost 9.4% of the pension every month. From the date of wage settlement i.e. from 2008 to day the

financial losses of BSNL workers are somewhere near Rs. 4000 crores. **This is due the criminal failure of BSNLEU. FNTO saved the workers from WAGE-CUT.**

**The BSNLEU was purposely delaying the wage settlement, demanding *wage settlement every five years instead of 10 years*, in tune with the demand of CITU. FNTO smell danger in delay of settlement, as the company was all set to declare loss in that year 2009. Hence if the wage settlement was not done before declaring the financial results of the company, as a loss making company instead of upward revision of wages the management will urge for a wage cut. Hence FNTO started a nationwide movement and asked every worker to represent to the CMD-BSNL for early wage-settlement. **Thus FNTO SAVED THE BSNL WORKERS FROM A WAGE CUT.****

Now the BSNLEU conveniently twisting the matter hoping that they can mislead the workers. Impossible BSNL workers will never forgive you for this betrayal.
