April 9, 2015

The joint meeting of the Central Trade Unions held on 9th April 2015 at INTUC office at New Delhi expresses serious concern over the anti-worker, anti-people policies being pursued by the Central Government and their grievous fall out on the life and livelihood of the toiling people. The CTUOs, while reviewing the countrywide united protests being observed by the trade union movement against such policy regime, the latest being the countrywide satyagraha on 26th February 2015, stressed upon the need for stronger united countrywide action programmes.

It has been unanimously decided that a National Convention of Workers will be held at New Delhi on 26th May 2015 wherefrom the programme of direct action including countrywide strike will be announced.
